Notes: Statewide Total Nonfarm is a summed total and Wholesale Trade has been added as a seasonally adjusted series in 2011.

Mining & Logging and Information are not published seasonally adjusted because the seasonal component, which is small relative to the trend-cycle and irregular components, cannot be separated with sufficient precision.

Program Update: Starting with the March 2011 estimates, the Current Employment Statistics (CES) transitioned from the VT Department of Labor to the U.S. Bureau of Labor Statistics (BLS). The BLS implemented several methodological changes to standardize the estimation approach across states. While these changes will reduce the potential for statistical bias in state and metropolitan area estimates, they may increase the month to month variability of the estimates. More information is available on the BLS website at <http://www.bls.gov/sae/cesprocs.htm>

Produced by the U.S Bureau of Labor Statistics in cooperation with the Vermont Department of Labor.
